<b>Date</b>	<b>Item</b>
<b>October 9, 2020</b>	Plaintiff serves preliminary <sup>1</sup> infringement contentions in the form of a chart setting forth where in the accused product(s) each element of the asserted claim(s) are found. <b>October 30, 2020</b> (2 weeks after the CMC)	Deadline for Motions to Transfer

<sup>1</sup> The parties may amend preliminary infringement contentions and preliminary invalidity contentions without leave of court so long as counsel certifies that it undertook reasonable efforts to prepare its preliminary contentions and the amendment is based on material identified after those preliminary contentions were served, and should do so seasonably upon identifying any such material. Any amendment to add patent claims requires leave of court so that the Court can address any scheduling issues.

<b>Date</b>	<b>Item</b>
<b>December 4, 2020</b> (7 weeks after the CMC)	Defendant serves preliminary invalidity contentions in the form of (1) a chart setting forth where in the prior art references each element of the asserted claim(s) are found, (2) an identification of any limitations the Defendant contends are indefinite or lack written description under section 112, and (3) an identification of any claims the Defendant contends are directed to ineligible subject matter under section 101. Defendant shall also produce (1) all prior art referenced in the invalidity contentions, (2) technical documents, including software where applicable, sufficient to show the operation of the accused product(s), and (3) summary, annual sales information for the accused product(s) for the two years preceding the filing of the Complaint, unless the parties agree to some other timeframe.
<b>December 18, 2020</b> (9 weeks after the CMC)	Parties exchange claim terms for construction.
<b>January 8, 2021</b> (12 weeks after the CMC)	Parties exchange proposed claim constructions.
<b>January 13, 2021</b> (13 weeks after the CMC)	Parties disclose extrinsic evidence. The parties shall disclose any extrinsic evidence, including the identity of any expert witness they may rely upon in their opening brief with respect to claim construction or indefiniteness. With respect to any expert identified, the parties shall identify the scope of the topics for the witness's expected testimony. With respect to items of extrinsic evidence, the parties shall identify each such item by production number or produce a copy of any such item if not previously produced.
<b>January 15, 2021</b> (13 weeks after the CMC)	Deadline to meet and confer to narrow terms in dispute and exchange revised list of terms/constructions.
<b>January 22, 2021</b> (14 weeks after the CMC)	Parties file Opening claim construction briefs, including any arguments that any claim terms are indefinite. <sup>2</sup>
<b>February 5, 2021</b> (16 weeks after the CMC)	The parties shall disclose the identity of any rebuttal expert witness they may rely upon in their response brief with respect to claim construction or indefiniteness. With respect to any expert identified, the parties shall identify the scope of the topics for the witness's expected testimony.

<b>May 21, 2021</b> (8 weeks after <i>Markman</i> )	Deadline to serve Final Infringement and Invalidity Contentions. After this date, leave of Court is required for any amendment to Infringement or Invalidity contentions. This deadline does not relieve the Parties of their obligation to seasonably amend if new information is identified after initial contentions.
<b>July 16, 2021</b> (16 weeks after <i>Markman</i> )	Deadline to amend pleadings. A motion is not required unless the amendment adds patents or claims.
<b>Plaintiff proposes:</b> <b>September 24, 2021</b> (26 weeks after <i>Markman</i> )  <b>Defendant proposes:</b> <b>June 25, 2021</b> (13 weeks after <i>Markman</i> )	Deadline for the first of two meet and confers to discuss significantly narrowing the number of claims asserted and prior art references at issue. Unless the parties agree to the narrowing, they are ordered to contact the Court's Law Clerk to arrange a teleconference with the Court to resolve the disputed issues.  <u>Plaintiff's statement:</u> WSOU believes the parties should adhere to the OGP and the Court should adopt WSOU's proposal. A rushed discussion, midway through discovery, without the benefit of adequate discovery is not only inefficient, but prejudicial to WSOU claims.

<sup>3</sup> The parties should contact the law clerk to request a Box link so that the party can directly upload the file to the Court's Box account.

Date	Item
	<p><u>Defendant's statement:</u></p> <p>Google believes that an earlier discussion of case narrowing will be beneficial given the number of cases and claims asserted, and has proposed a deadline that is closer to the deadline for final contentions.
